Courses planned for Sem 1 and Sem 2, based on NUS's 2026/27 courses, exams and exchange list

Year of study during the exchange: 2 · Made on 12 Nov 2026 with NUS Mod Finder

`https://nusmodfinder.rcn.sh/?sem=1&ng=1&study=ug2&pick=EN3264.1&pick=ACC1701XA.1&pick=AN2205.1&pick=BSN3701.1&pick=CG2023.1&pick=CM3296.1&pick=CS1010.1&pick=CS2030DE.1&pick=CS3231.1&pick=DAO2702X.1&pick=EE2028.1&pick=GE2101.1&pick=GE3256.1&pick=GESS1009.1&pick=HS1502.1&pick=ID3132.1&pick=LAL1201.1&pick=LAT1201.1&pick=LSM4226.1&pick=MUA4161.1&alt=LL4407.2&alt=ACC1701XB.2&alt=AR5221.2&alt=AR5601.2&alt=CG3201.2&alt=CM5223.2&alt=CM5244.2&alt=CS1010E.2&alt=CS2113.2&alt=CS4212.2&alt=EC2880C.2&alt=EN2203.2&alt=ESE3101.2&alt=GE1101E.2&alt=GE3249.2&alt=HSI2014.2&alt=ID4400.2&alt=IT1244.2&alt=LAK1201.2&alt=LAR1201.2&ay=2026-2027&view=shortlist`

For a later year, check that year's: NUS publishes the exchange course list in March or April and updates it later (this one is dated 1 Sep 2026), and publishes the course descriptions and exam timetable in July or August (NUS Global).

Sem 1

Primary picks

EN3264 In Other Wor(l)ds: Post -colonial Theory & Literature

Application form, Sem 1
1

Primary pick 1 · Sem 1 · 4 units · https://nusmods.com/courses/EN3264

Department, level	English,Ling.andTheatre Studies, Arts and Social Science · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	✓ Sem 1 · Open to exchange students
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 0, tutorial 0, lab 0, project 3, preparation 7 hours a week (10 in all). NUSMods lists no lecture, tutorial or lab hours
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN (must have completed EN1101E at a grade of at least D AND must have completed 1 of any Courses beginning with EN2 at a grade of at least D)
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course provides an intensive introduction to key topics in post-colonial theory through an overview of representative literary and theoretical texts. The syllabus demonstrates the vexed significance of the “post” in post-colonial cultural traditions. In tracing how decolonization remains bound up with older, colonial forms of knowledge/power, we approach post-coloniality as an aftermath. Through a range of writerly forms and cultural media, we identify the post-colonial in the question of “tradition” and its centrality to “non-Western” modernity; in inscriptions of race/ethnicity/sexuality into Third World humanism; as the mourning for a vanishing past; as aesthetic resistance to homogenizing processes of modernization.

ACC1701XA Accounting for Decision Makers

On the form only if invited

Primary pick 2 · Sem 1 · 4 units · https://nusmods.com/courses/ACC1701XA

Department, level	Accounting, NUS Business School · Level 1000–3000, undergraduate
Counts	Only for students invited by NUS Business School (not counted unless you say you were invited)
Exchange status, Sem 1	◈ Sem 1 · Open, with 2 notes – Places. Business courses are very popular, so a place is not guaranteed. NUS students who need them for their degree, and students from the Business School's own exchange partners, get places first (NG restrictions, updated 31 Aug 2026). – Your major. Only for students majoring in business at their home university (NG restrictions, updated 31 Aug 2026). – GRO: “Business and Law courses are only available to students who are invited by NUS Business School and NUS Law respectively to apply for the exchange during the nomination period”. – If you're not sure whether you were, ask your exchange office. – NUS's CourseReg FAQ: “Only students who have been offered Business courses during the application stage will be able to see the courses”.
2026/27 exam	Fri 27 Nov 2026, 2:30 pm, 2 h (Singapore time)
Workload (NUSMods)	Lecture 2, tutorial 1, lab 0, project 4, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN must be in one of the cohorts from 2017 inclusive
Preclusion	If undertaking an Undergraduate Degree THEN ((must not be undertaking 1 of 0200ACCHON Bachelor of Business Administration (Accountancy), 0200BBAHON Bachelor of Business Administration (Hons), 0200BIZMAJ Bachelor of Business Administration Hons - Undeclared Major, 0200BREHON Bachelor of Business Administration (Real Estate) Hons, 0200BIZHON Bachelor of Business Administration Hons - General Management, 0200OSCHON Bachelor of Business Administration Hons - Operations & Supply Chain Management, 0200MKTHON Bachelor of

Business Administration Hons - Marketing, 0200LHCHON Bachelor of Business Administration Hons - Leadership & Human Capital Management, 0200ACYHON Bachelor of Business Administration (Accountancy) Hons, 0200INEHON Bachelor of Business Administration Hons - Innovation & Entrepreneurship, 0200BECHON Bachelor of Business Administration Hons - Business Economics, 0200FINHON Bachelor of Business Administration Hons - Finance, 0200ABAHON Bachelor of Business Administration Hons - Applied Business Analytics) OR (must not have completed 1 of EC2204 at a grade of at least D, any Courses beginning with ACC1701 at a grade of at least D))

COURSE DESCRIPTION (NUS, VIA NUSMODS)

The course provides an introduction to accounting from a user perspective. Financial reporting is covered from the viewpoint of an external investor. The focus is on how accounting can help investors make better decisions. Book-keeping and preparation of financial statements are also covered at an introductory level, as investors need to be aware of how the financial statements are derived.

AN2205 Food and Foodways

Application form, Sem 1

2

Primary pick 3 · Sem 1 · 4 units · https://nusmods.com/courses/AN2205

Department, level	Sociology and Anthropology, Arts and Social Science · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	✓ Sem 1 · Open to exchange students
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 2, tutorial 1, lab 0, project 4, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	If undertaking an Undergraduate Degree THEN must not have completed SC2215 at a grade of at least D

COURSE DESCRIPTION (NUS, VIA NUSMODS)

Food is a social phenomenon: what constitutes food and, therefore, what can be eaten; how it is to be prepared, presented, and consumed; with whom you eat and so forth express complex relationships to class, ethnicity and gender. This course will uncover the complexity behind an everyday life material that affects and effects multiple social networks, wherein food is both the material and symbol by which class, race/ethnicity, sex/gender are socially constructed. This course is mounted for all students throughout NUS with interest in food and society.

BSN3701 Technological Innovation

On the form only if invited

Primary pick 4 · Sem 1 · 4 units · https://nusmods.com/courses/BSN3701

Department, level	Strategy and Policy, NUS Business School · Level 1000–3000, undergraduate
Counts	Only for students invited by NUS Business School (not counted unless you say you were invited)
Exchange status, Sem 1	◈ Sem 1 · Open, with 3 notes

- Timetable. The NG list offers it in Sem 1, but NUSMods shows no classes for it in Sem 1. Ask the department that teaches it whether it will run (NG list, updated 01 Sep 2026).
- Places. Business courses are very popular, so a place is not guaranteed. NUS students who need them for their degree, and students from the Business School's own exchange partners, get places first (NG restrictions, updated 31 Aug 2026).
- Your major. Only for students majoring in business at their home university (NG restrictions, updated 31 Aug 2026).
- GRO: “Business and Law courses are only available to students who are invited by NUS Business School and NUS Law respectively to apply for the exchange during the nomination period”.
- If you're not sure whether you were, ask your exchange office.
- NUS's CourseReg FAQ: “Only students who have been offered Business courses during the application stage will be able to see the courses”.

2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 0, tutorial 3, lab 0, project 3, preparation 4 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN must be in one of the cohorts from 2017 inclusive
Preclusion	If undertaking an Undergraduate Degree THEN (must not have completed 1 of any Courses beginning with BSN3701 at a grade of at least D, IS3251/TR3008 at a grade of at least D)

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course aims to equip students with strong conceptual foundation for understanding the dynamic process of technological innovation. Students will be introduced to the importance of technological innovation as a driver for value creation and economic growth. The dynamics of technological change will be analyzed through the concepts such as technology life-cycles, dominant design, network externalities, and first-mover advantage. Key technology commercialization processes through which an innovative idea is transformed into a successful product or service in the marketplace will be studied, and the key organizational/management factors and socio-economic/competitive environmental factors that influence the effectiveness of these processes will be highlighted.

CG2023 Signals and Systems

Application form, Sem 1

3

Primary pick 5 · Sem 1 · 4 units · https://nusmods.com/courses/CG2023

Department, level	Computing and Engineering Programme, Multi Disciplinary Programme · Level 1000–3000, undergraduate
Counts	To confirm with NUS: read its notes.

Exchange status, Sem 1	Sem 1 · Open, with 2 notes
	– Timetable. The NG list offers it in Sem 1, but NUSMods shows no classes for it in Sem 1. Ask the department that teaches it whether it will run (NG list, updated 01 Sep 2026).
	– Rules disagree. The NG list offers this course to exchange students, but the School of Computing says no course whose code starts with CG is open to them. Ask NUS before you choose it (NG restrictions, updated 31 Aug 2026).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 2, tutorial 2, lab 1, project 2, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN must have completed 1 of CE2407B/MA1506/MA1512 at a grade of at least D
Preclusion	If undertaking an Undergraduate Degree THEN must not have completed 1 of EE2023/EE2023E/TEE2023 at a grade of at least D

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This is a fundamental course in signals and systems, specially developed for computer engineering students. Signals play an important role in carrying information. In particular the idea of frequency domain analysis of signals and systems are important concepts for all computer engineers. The concepts which will be covered include time and frequency domain representations, Fourier transform, spectrum and bandwidth of a signal, frequency response of linear time-invaraint(LTI) systems, system tranfer function and system stability, system Bode diagrams, sampling theorem, aliasing, signal reconstruction, and filtering.

CM3296 Molecular Modelling: Theory & Practice

Application form, Sem 1
4

Primary pick 6 · Sem 1 · 4 units · https://nusmods.com/courses/CM3296

Department, level	Chemistry, Science · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	Sem 1 · Open to exchange students
2026/27 exam	Mon 23 Nov 2026, 5:00 pm, 2 h (Singapore time)
Workload (NUSMods)	Lecture 4, tutorial 0, lab 0, project 3, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN must have completed 1 of CM2101/CM2133 at a grade of at least D
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

Fundamental concepts of molecular modelling; survey of computational methods; molecular mechanics and force fields; empirical and semi-empirical methods; Ab initio theory; basis sets; electron correlation methods; density functional theory; chemical visualization and graphics models; qualitative molecular orbital theory; potential energy surfaces and minimization' molecular dynamics and Monte-Carlo simulations; calculation of molecular properties (IR, UV, NMR and electron density distribution); use of molecular modelling software (Spartan and Gaussian); applications of modelling to chemical problems, modelling biomolecules: conformational analysis, QSAR, docking, ligand design.

CS1010 Programming Methodology

Application form, Sem 1
5

Primary pick 7 · Sem 1 · 4 units · https://nusmods.com/courses/CS1010

Department, level	Computer Science, Computing · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	Sem 1 · Open to exchange students
NUS's notes	– NUS says these courses are extremely oversubscribed, gives priority to students majoring in them, and advises students with other majors against choosing them (GRO).
2026/27 exam	Wed 25 Nov 2026, 9:00 am, 2 h (Singapore time)
Workload (NUSMods)	Lecture 2, tutorial 1, lab 1, project 3, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	If undertaking an Undergraduate Degree THEN (must not have completed 1 of CS1010A/CS1010E/CS1010HS/CS1010J/CS1010S/CS1010X/CS1101S/UTC2851 at a grade of at least D)

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course introduces the fundamental concepts of problem solving by computing and programming using an imperative programming language. It is the first and foremost introductory course to computing. Topics covered include computational thinking and computational problem solving, designing and specifying an algorithm, basic problem formulation and problem solving approaches, program development, coding, testing and debugging, fundamental programming constructs (variables, types, expressions, assignments, functions, control structures, etc.), fundamental data structures (arrays, strings, composite data types), basic sorting, and recursion.

CS2030DE Programming Methodology II

Application form, Sem 1
6

Primary pick 8 · Sem 1 · 4 units · https://nusmods.com/courses/CS2030DE

Department, level	Electrical and Computer Engineering, College of Design and Engineering · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	Sem 1 · Open to exchange students

NUS's notes	– NUS says these courses are extremely oversubscribed, gives priority to students majoring in them, and advises students with other majors against choosing them (GRO).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 1, tutorial 1, lab 2, project 3, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN (must have completed 1 of CS1010/CS1010A/CS1010E/CS1010J/CS1010S/CS1010X/CS1101S at a grade of at least D)
Preclusion	If undertaking an Undergraduate Degree THEN ((must not have completed 1 of CS2030/CS2030S at a grade of at least D) AND (must not be undertaking 0300CSMIN Computer Science (Minor)) AND (must not be undertaking 0300CS2MJ Computer Science (2nd Major)))

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course is a follow-up to the basic programming methodology course. It explores two modern programming paradigms - object-oriented programming and functional programming. Through a series of integrated assignments, students will learn to develop medium-scale software programmes using object-oriented design principles and advanced programming constructs available in the two paradigms. Topics include objects and classes, composition, association, inheritance, interface, polymorphism, abstract classes, dynamic binding, generics, exception handling, lambda expression, side effect-free programming, first-class functions, closures, continuations, monad, etc.

CS3231 Theory of Computation

Application form, Sem 1
7

Primary pick 9 · Sem 1 · 4 units · https://nusmods.com/courses/CS3231

Department, level	Computer Science, Computing · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	✓ Sem 1 · Open to exchange students
NUS's notes	– NUS says these courses are extremely oversubscribed, gives priority to students majoring in them, and advises students with other majors against choosing them (GRO).
2026/27 exam	Sat 21 Nov 2026, 9:00 am, 2 h (Singapore time)
Workload (NUSMods)	Lecture 2, tutorial 1, lab 0, project 3, preparation 4 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN (must have completed 1 of CS1231/CS1231S/MA1100/MA1100T at a grade of at least D AND must have completed 1 of CS2040/CS2040C/CS2040DE/CS2040HS/CS2040S at a grade of at least D)
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course examines fundamental aspects of computation that every computer scientist should know. What is a finite automaton and how does it relate to regular expressions (and searching a database)? What is a context-free language and how does it relate to parsing languages? What is the P vs. NP problem and why does it matter? How do we decide if a problem is easy or hard? This course introduces techniques for precisely formulating problems and studying their properties using a variety of commonly used reasoning techniques (e.g., model equivalence, non-determinism, digitalisation, simulation and reduction).

DA02702X Programming for Business Analytics and AI

On the form only if invited

Primary pick 10 · Sem 1 · 4 units · https://nusmods.com/courses/DAO2702X

Department, level	Analytics and Operations, NUS Business School · Level 1000–3000, undergraduate
Counts	Only for students invited by NUS Business School (not counted unless you say you were invited)
Exchange status, Sem 1	◈ Sem 1 · Open, with 2 notes
	– Places. Business courses are very popular, so a place is not guaranteed. NUS students who need them for their degree, and students from the Business School's own exchange partners, get places first (NG restrictions, updated 31 Aug 2026).
	– Your major. Only for students majoring in business at their home university (NG restrictions, updated 31 Aug 2026).
	– GRO: “Business and Law courses are only available to students who are invited by NUS Business School and NUS Law respectively to apply for the exchange during the nomination period”.
	– If you're not sure whether you were, ask your exchange office.
	– NUS's CourseReg FAQ: “Only students who have been offered Business courses during the application stage will be able to see the courses”.
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 0, tutorial 0, lab 0, project 7, preparation 3 hours a week (10 in all). NUSMods lists no lecture, tutorial or lab hours
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN (must have completed 1 of any Courses beginning with DAO1704 at a grade of at least D AND must be in one of the cohorts from 2017 inclusive)
Preclusion	If undertaking an Undergraduate Degree THEN ((must not be undertaking 0200ACCHON Bachelor of Business Administration (Accountancy), 0200BBAHON Bachelor of Business Administration (Hons), 0200BIZMAJ Bachelor of Business Administration Hons - Undeclared Major, 0200BREHON Bachelor of Business Administration (Real Estate) Hons, 0200BIZHON Bachelor of Business Administration Hons - General Management, 0200OSCHON

Bachelor of Business Administration Hons - Operations & Supply Chain Management, 0200MKTHON Bachelor of Business Administration Hons - Marketing, 0200LHCHON Bachelor of Business Administration Hons - Leadership & Human Capital Management, 0200ACYHON Bachelor of Business Administration (Accountancy) Hons, 0200INEHON Bachelor of Business Administration Hons - Innovation & Entrepreneurship, 0200BECHON Bachelor of Business Administration Hons - Business Economics, 0200FINHON Bachelor of Business Administration Hons - Finance, 0200ABAHON Bachelor of Business Administration Hons - Applied Business Analytics) OR (if in one of the cohorts from 2023 inclusive THEN must not be undertaking 0200RSTHON Bachelor of Science (Real Estate) (Hons)) OR (must not have completed 1 of any Courses beginning with DAO2702 at a grade of at least D))

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course prepares students for the evolving intersection of business analytics and artificial intelligence through Python programming. Moving beyond traditional statistics, the curriculum focuses on robust programming foundations, advanced data visualization, and real-world problem-solving. Students learn to navigate modern workflows by using Python to process data and integrate diverse AI capabilities into business scenarios. By focusing on how to coordinate data with AI services, the course prepares students to implement modern, scalable solutions that evolve alongside new technical breakthroughs, and also cultivates critical thinking by training students to evaluate AI-generated outputs, identify potential errors in AI-generated code, and make informed judgments on when and how AI should be used. Participants will apply these skills to practical projects, gaining the technical confidence to implement AI-driven solutions in dynamic business environments.

EE2028 Microcontroller Programming and Interfacing

Application form, Sem 1

8

Primary pick 11 · Sem 1 · 4 units · https://nusmods.com/courses/EE2028

Department, level	Electrical and Computer Engineering, College of Design and Engineering · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	✓ Sem 1 · Open to exchange students
2026/27 exam	Thu 26 Nov 2026, 1:00 pm, 2 h (Singapore time)
Workload (NUSMods)	Lecture 3, tutorial 1, lab 1, project 2, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN ((must have completed 1 of CG1111A/EE1111B/EE2111A at a grade of at least D) AND (must have completed 1 of UTC2851 at a grade of at least D, any Courses beginning with CS1010 at a grade of at least D))
Preclusion	If undertaking an Undergraduate Degree THEN (must not have completed 1 of CG2028/EE2024 at a grade of at least D)

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course teaches students how to programme microcontrollers and achieve computer interfacing using C programming and industry-standard protocols. This course covers C programming, microprocessor instruction sets, and how to programme microcontrollers to interface with other devices in order to build an embedded system. The course culminates in an assignment in which students design and build a complex embedded system (IoT node) that meets requirements and specifications.

GE2101 Methods and Practices in Geography

Application form, Sem 1

9

Primary pick 12 · Sem 1 · 4 units · https://nusmods.com/courses/GE2101

Department, level	Geography, Arts and Social Science · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	◈ Sem 1 · Open, with 1 note – Places. The number of places is limited, so you may not get one (NG restrictions, updated 31 Aug 2026).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 2, tutorial 1, lab 1, project 4, preparation 2 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This introductory course on methods has two fundamental aims. In addition to highlight the ‘best practices’ in research, this course aims to equip students with a range of practical qualitative and quantitative research skills that will be ‘transferable’ to a variety of post-university situations.

GE3256 Earth Surface Processes, Landforms and Ecosystems

Application form, Sem 1

10

Primary pick 13 · Sem 1 · 4 units · https://nusmods.com/courses/GE3256

Department, level	Geography, Arts and Social Science · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	✓ Sem 1 · Open to exchange students
2026/27 exam	Tue 1 Dec 2026, 9:00 am, 2 h (Singapore time)
Workload (NUSMods)	Lecture 2, tutorial 0, lab 2, project 2, preparation 4 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed

Preclusion	if undertaking an Undergraduate Degree then (must not have completed "GE2220" at a grade of at least D)

COURSE DESCRIPTION (NUS, VIA NUSMODS)

Earth's geosphere – the ground beneath our feet – may seem constant and relatively unchanging, but nothing could be further from the truth. This course examines the main processes that combine to influence the development of Earth's surface and the formation of and changes to landscapes. The origins and development of landforms, particularly in the humid tropics, is explored, as are the characteristics, functioning, dynamics and interactions within and between major associated ecosystems. Human-induced landform and ecosystem modifications are also considered. The knowledge obtained in this course is applicable to broader environmental management issues.

GESS1009 The Evolution of a Global City-State

Won't fit in NUS's 40 units

Primary pick 14 · Sem 1 · 4 units · https://nusmods.com/courses/GESS1009

Department, level	History, Arts and Social Science · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	✓ Sem 1 · Open to exchange students
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 2, tutorial 1, lab 0, project 2, preparation 5 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	If undertaking an Undergraduate Degree THEN (must not have completed 1 of GES1011/SSA2211 at a grade of at least D)

COURSE DESCRIPTION (NUS, VIA NUSMODS)

The history of Singapore has traditionally been conceived along internal lines, based mainly, if not solely, on the traditional trajectories of administrative, political and national historical narratives. Yet, as we all know, the evolution of Singapore, from classical regional emporium to international port city and strategic naval base, has all along been defined by much larger regional and international forces. After its emergence as a sovereign state in 1965, Singapore continues to project itself as a 'global city-state'. Our local society has an 'international' make-up, being the product as it were of historical and current diasporic trends. This course provides an international framework for a study of the history of Singapore, and seeks to examine the historical evolution of Singapore against the contexts of regional and international changes and developments from the 14th to the 20th century. This course is open to all students throughout NUS interested in Singapore history/studies.

HS1502 Conceptual Introduction to Machine Learning

Won't fit in NUS's 40 units

Primary pick 15 · Sem 1 · 4 units · https://nusmods.com/courses/HS1502

Department, level	Physics, Science · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	✓ Sem 1 · Open to exchange students
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 3, tutorial 0, lab 0, project 3, preparation 4 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	If undertaking an Undergraduate Degree THEN must not have completed 1 of CS2109HS/CS2109S/HS1501/HS1503/HS1504/IT1244 at a grade of at least D

COURSE DESCRIPTION (NUS, VIA NUSMODS)

Machine learning (ML) is the dominant component of modern research in artificial intelligence. Although ML is largely associated with computer science and software engineering, many of its foundational techniques have historical roots in the natural and social sciences, and are commonly used in those fields. More recently, the rapid development of modern ML also has growing implications for practitioners of the arts and humanities. Using only high-school mathematics and no programming, this course will peer under the tech-centric outer hood of ML, by providing a conceptual-level introduction to its most important techniques and their various applications.

ID3132 Digital Creation and Production

Won't fit in NUS's 40 units

Primary pick 16 · Sem 1 · 4 units · https://nusmods.com/courses/ID3132

Department, level	Design, College of Design and Engineering · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	◈ Sem 1 · Open, with 1 note – Grading. You must take it for a grade (NG restrictions, updated 31 Aug 2026).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 2, tutorial 2, lab 0, project 6, preparation 0 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	If undertaking an Undergraduate Degree THEN must not have completed ID3128 at a grade of at least D

COURSE DESCRIPTION (NUS, VIA NUSMODS)

Digital Creation and Production will cover a broad combination of creative and authoring techniques. Students will learn how to design and create communication and 2D and 3D graphics using a range of digital platforms, commonly used in professional practice. Students will learn efficient workflows commonly used in professional practice and how to select the appropriate tool for a specific visual output, enabling the

student designer to bring their concepts into reality. The focus will be placed on the development of images and how they are best applied in certain application spaces. This is supported by the use of commonly used professional software and their seamless integration from one tool to the next. The combination and application of these electronic media tools will support page layouts, photo and image editing, colour renditions, drawing, 2D and 3D graphics, and graphic translation.

LAL1201 Tamil 1

Won't fit in NUS's 40 units

Primary pick 17 · Sem 1 · 4 units · https://nusmods.com/courses/LAL1201

Department, level	Centre for Language Studies, Arts and Social Science · Level 1000–3000, undergraduate
Counts	To confirm with NUS: read its notes.
Exchange status, Sem 1	Sem 1 · Open, with 2 notes – Timetable. The NG list offers it in Sem 1, but NUSMods shows no classes for it in Sem 1. Ask the department that teaches it whether it will run (NG list, updated 01 Sep 2026). – Grading. You must take it for a grade. You cannot audit it (attend without a grade) (NG restrictions, updated 31 Aug 2026).
NUS's notes	– NUS needs a separate form in your application for a Level 1000 language course (GRO).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 2, tutorial 2, lab 0, project 3, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

The course aims at enabling non-Tamil-speaking beginners to achieve competence in understanding and using basic Tamil, both its spoken and written forms. The emphasis is mainly on conversational Tamil and its practical use at the level of everyday discourse and on written Tamil and its use at the beginners' level. To facilitate immersion into the Tamil language, students will be taught the necessary skills of listening, reading, writing and speaking initially through a Romanised script; during the semester the students will learn the orthographic system of the Tamil language. The essential aspects of Tamil grammar will also be taught. By the end of course, students will be able to write and read small texts by using the Tamil orthographic system and possess listening and speaking skills in Tamil language.

LAT1201 Thai 1

Won't fit in NUS's 40 units

Primary pick 18 · Sem 1 · 4 units · https://nusmods.com/courses/LAT1201

Department, level	Centre for Language Studies, Arts and Social Science · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	Sem 1 · Open, with 1 note – Grading. You must take it for a grade. You cannot audit it (attend without a grade) (NG restrictions, updated 31 Aug 2026).
NUS's notes	– NUS needs a separate form in your application for a Level 1000 language course (GRO).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 4, tutorial 0, lab 0, project 3, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course aims to develop language proficiency in an integrated approach. Students will acquire language skills through participation in various communicative tasks. Through the exposure to the language, students will develop a general understanding of the cultures, the sociolinguistic and pragmatic aspects of the language. By the end of the course, students will acquire basic skills of speaking, listening, reading, and writing to maintain communication on common topics.

LSM4226 Infection and Immunity

Won't fit in NUS's 40 units

Primary pick 19 · Sem 1 · 4 units · https://nusmods.com/courses/LSM4226

Department, level	Microbiology and Immunology, Yong Loo Lin Sch of Medicine · Level 4000, Honours
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 1	Sem 1 · Open to exchange students
NUS's notes	– GRO: “Higher level undergraduate courses (e.g. course code starting from 4000 & above) have very limited supply and are usually NOT available to exchange students. In order to increase the chances of securing enough courses, incoming exchange students should consider taking courses with course code starting from 1000 to 3000”.
2026/27 exam	Mon 30 Nov 2026, 9:00 am, 2 h (Singapore time)
Workload (NUSMods)	Lecture 2, tutorial 2, lab 0, project 2, preparation 4 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN must have completed LSM3223 at a grade of at least D AND must have completed 1 of LSM3225/LSM3232 at a grade of at least D
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course aims at providing an in-depth knowledge in the field of host-pathogen interactions, i.e., how the immune system deals with pathogens, and how the pathogens deal with the host's immune system. An introductory lecture series covers the basics in microbiology (bacteriology, virology, parasitology), immunology, vaccinology, and general principles of host-pathogen interactions. Selected diseases illustrate host-pathogens interactions along with the consequences for vaccine and drug design. The following set of lectures covered by clinicians and professionals focus on patient management, field study, as well as safety aspects when working with pathogens in a research lab. Tutorials are broken into 'journal club', 'article write-up exercise' and 'problem-based study' and are directly related to the topics developed during the lectures.

MUA4161 Advanced Studies on Principal Instrument

Won't fit in NUS's 40 units

Primary pick 20 · Sem 1 · 6 units · https://nusmods.com/courses/MUA4161

Department, level	YSTCM Dean's Office, YST Conservatory of Music · Level 4000, Honours
Counts	To confirm with NUS: read its notes.
Exchange status, Sem 1	Sem 1 · Open, with 2 notes – Timetable. The NG list offers it in Sem 1, but NUSMods shows no classes for it in Sem 1. Ask the department that teaches it whether it will run (NG list, updated 01 Sep 2026). – Partner schools. Only for students from universities that partner with NUS's Yong Siew Toh Conservatory of Music. Ask your exchange office if yours is one (NG restrictions, updated 31 Aug 2026).
NUS's notes	– GRO: "Higher level undergraduate courses (e.g. course code starting from 4000 & above) have very limited supply and are usually NOT available to exchange students. In order to increase the chances of securing enough courses, incoming exchange students should consider taking courses with course code starting from 1000 to 3000".
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 0, tutorial 3, lab 0, project 0, preparation 12 hours a week (15 in all)
Estimated study time	About 15 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN (must have completed MUA3162 at a grade of at least D)
Preclusion	If undertaking an Undergraduate Degree THEN must not have completed MUA4161A

COURSE DESCRIPTION (NUS, VIA NUSMODS)

Focused study on an instrument forms the central pillar for the BMus Majors in piano, strings, brass, wind and percussion. Normally undertaken in the fourth year of study, this course usually begins the journey for students towards their capstone Senior Recital and assures that their instrumental readiness is appropriate for the next stage in their professional journey, whether to graduate school or into prefoessional work.

Sem 1 totals

- Sem 1: 56 units picked, if NUS accepts you into each
- plus 14 units to confirm with NUS
- plus 12 units only if invited
- About 140 hours a week at NUS's rate (2.5 hours a week per unit)
- NUS states hours a week only; your university's own conversion decides credit
- GRO: "Each semester normally includes 13 weeks of instruction and 2 weeks of examinations"
- To be admitted, NUS must accept you into at least 12 units in a semester (NUS's brochure; GRO: "three pre-registered courses (or 12 units)")
- In CourseReg you must keep at least 12 units or three courses (GRO)
- NUS's brochure says at most 23 units a semester, but NUS Global's exchange page says 20 (NUS Business School's exchange students: 20). Ask NUS before planning more than 20.
- This limits the courses NUS enrols you in, not the courses you list
- If you were invited: Business courses are very popular, so a place is not guaranteed. NUS students who need them for their degree, and students from the Business School's own exchange partners, get places first.

Sem 2

Backups

LL4407 Law Of Insurance

On the form only if invited

Backup 1 · Sem 2 · 8 units · https://nusmods.com/courses/LL4407

Department, level	FoL Dean's Office, Law · Level 4000, Honours
Counts	Only for students invited by NUS Law (not counted unless you say you were invited)
Exchange status, Sem 2	Sem 2 · Open, with 1 note – Your major. Only for students majoring in Law at their home university (NG restrictions, updated 31 Aug 2026). – GRO: "Business and Law courses are only available to students who are invited by NUS Business School and NUS Law respectively to apply for the exchange during the nomination period". – If you're not sure whether you were, ask your exchange office.
2026/27 exam	Tue 27 Apr 2027, 1:00 pm, 2 h 30 min (Singapore time)
Workload (NUSMods)	Lecture 3, tutorial 2, lab 0, project 0, preparation 15 hours a week (20 in all)

Estimated study time	About 20 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	If undertaking an Undergraduate Degree THEN must not have completed any Courses beginning with LL4407 at a grade of at least D

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course deals with the principles and doctrines underpinning the formation and validity of insurance policies. It seeks to help students critically analyse and appreciate the concepts of risk management, the protection of commercial businesses assets as well as the protection of individuals against unforeseen contingencies and losses that may arise. The topics include nature of general insurance contracts, formation of insurance contracts, peculiar insurance doctrines (such as non-disclosure, warranties and subrogation), claims procedure, doctrine of indemnity and measuring your losses; additionally, the role of Artificial Intelligence in disrupting and interfacing with orthodox insurance principles will also be considered. The techniques of successfully claiming under the policy and contesting the insurer's wrongful denial of claims will be covered — including the critical analysis of theoretical underpinnings of the important insurance doctrines, the over-arching themes and underlying tensions in the entire sphere of insurance law.

ACC1701XB Accounting for Decision Makers

The same course as ACC1701XA

Backup 2 · Sem 2 · 4 units · https://nusmods.com/courses/ACC1701XB

Department, level	Accounting, NUS Business School · Level 1000–3000, undergraduate
Counts	Not counted: the same course as ACC1701XA.
Exchange status, Sem 2	◈ Sem 2 · Open, with 2 notes – Places. Business courses are very popular, so a place is not guaranteed. NUS students who need them for their degree, and students from the Business School's own exchange partners, get places first (NG restrictions, updated 31 Aug 2026). – Your major. Only for students majoring in business at their home university (NG restrictions, updated 31 Aug 2026). – GRO: “Business and Law courses are only available to students who are invited by NUS Business School and NUS Law respectively to apply for the exchange during the nomination period”. – Only for students invited by NUS Business School. – If you're not sure whether you were, ask your exchange office. – NUS's CourseReg FAQ: “Only students who have been offered Business courses during the application stage will be able to see the courses”.

COURSE DESCRIPTION (NUS, VIA NUSMODS)

The course provides an introduction to accounting from a user perspective. Financial reporting is covered from the viewpoint of an external investor. The focus is on how accounting can help investors make better decisions. Book-keeping and preparation of financial statements are also covered at an introductory level, as investors need to be aware of how the financial statements are derived.

AR5221 Contemporary Theories

Application form, Sem 2

1

Backup 3 · Sem 2 · 4 units · https://nusmods.com/courses/AR5221

Department, level	Architecture, College of Design and Engineering · Level 5000 and above, graduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 2	◈ Sem 2 · Open, with 1 note – Your major. Only for students majoring in Architecture or a related discipline (NG restrictions, updated 31 Aug 2026).
NUS's notes	– NUS says these courses are extremely oversubscribed, gives priority to students majoring in them, and advises students with other majors against choosing them (GRO). – GRO: “Higher level undergraduate courses (e.g. course code starting from 4000 & above) have very limited supply and are usually NOT available to exchange students. In order to increase the chances of securing enough courses, incoming exchange students should consider taking courses with course code starting from 1000 to 3000”.

2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 1.5, tutorial 1.5, lab 0, project 4, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

Contemporary Theories is a module that aims to expose architecture students to an array of intellectual ideas and theoretical positions by drawing from an expanded field of discourse that includes architecture, urban studies, design, cinema and the humanities. The broad focus acknowledges the unique nature of architectural education, the manifold forces that shape the design of a building, and the role an architect plays in society. The module punctually presents design cases for the students to understand that any technology of representation predefines the very “model” of reality in which design takes place.

AR5601 Urban Design Theory and Praxis

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This provides a comprehensive and in-depth examination of theories, methodologies and praxis of urban design, introducing ideas that are instrumental in establishing the foundations of urban design, examining rationales and strategies for creating vital and lively urban spaces, exploring key issues and myriad challenges facing urban design today and in future. Specifically, viewing urban design in the context of utopia, ecology, care and commoning, digital technologies and their different global to local manifestations, this module covers various topics on urban form, density, diversity, identity, public space, community, sustainability, etc.

CG3201 Machine Learning and Deep Learning

Application form, Sem 2

3

Backup 5 · Sem 2 · 4 units · https://nusmods.com/courses/CG3201

Department, level	Computing and Engineering Programme, Multi Disciplinary Programme · Level 1000–3000, undergraduate
Counts	To confirm with NUS: read its notes.
Exchange status, Sem 2	◈ Sem 2 · Open, with 1 note – Rules disagree. The NG list offers this course to exchange students, but the School of Computing says no course whose code starts with CG is open to them. Ask NUS before you choose it (NG restrictions, updated 31 Aug 2026).
2026/27 exam	Thu 29 Apr 2027, 5:00 pm, 2 h (Singapore time)
Workload (NUSMods)	Lecture 3, tutorial 0, lab 1, project 3, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN (must have completed 1 of EE2211/EE2213 at a grade of at least D)
Preclusion	If undertaking an Undergraduate Degree THEN (must not have completed 1 of BT4240/CS2109S/CS3244/CS3264/DMX1401AI/DMX1501AI/EE4802/IE4213)

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course is designed for students who have completed EE2211: Introduction to Machine Learning. It covers advanced topics in Machine Learning (Part I) and Deep Learning (Part II). In Part I, students will explore classical machine learning techniques, including Support Vector Machines, Bayesian Modelling, Kernel Methods, and Ensemble Methods. Part II shifts the focus to Artificial Neural Networks and Deep Learning. To reinforce their learning, students will undertake a project applying the techniques acquired in Deep Learning.

CS1010E Programming Methodology

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course introduces the fundamental concepts of problem solving by computing and programming using an imperative programming language. It is the first and foremost introductory course to computing. Topics covered include computational thinking and computational problem solving, designing and specifying an algorithm, basic problem formulation and problem solving approaches, program development, coding, testing and debugging, fundamental programming constructs (variables, types, expressions, assignments, functions, control structures, etc.), fundamental data structures (arrays, strings, composite data types), basic sorting, and recursion.

CS2113 Software Engineering & Object-Oriented Programming

Application form, Sem 2

4

Backup 9 · Sem 2 · 4 units · https://nusmods.com/courses/CS2113

Department, level	Computer Science, Computing · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it

Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Flags	– CS2113 and ESE3101: their 2026/27 exams overlap. If they still do in the year you go, NUS won't approve both and its form won't take both (GRO). NUS publishes each year's timetable in mid-July.
Prerequisite	If undertaking an Undergraduate Degree THEN (must have completed 1 of CS2040/CS2040C/CS2040DE/CS2040HS/CS2040S at a grade of at least D)
Preclusion	If undertaking an Undergraduate Degree THEN (must not have completed 1 of CS2103/CS2103DE/CS2103T/CS2113T at a grade of at least D)

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course introduces the necessary skills for systematic and rigorous development of software systems. It covers requirements, design, implementation, quality assurance, and project management aspects of small-to-medium size multi-person software projects. The course uses the Object Oriented Programming paradigm. Students of this course will receive hands-on practice of tools commonly used in the industry, such as test automation tools, build automation tools, and code revisioning tools will be covered.

COURSE DESCRIPTION (NUS, VIA NUSMODS)

With the increase in global trade and capital flows, understanding and managing foreign exchange market exposures are important skills in the workplace. This course introduces students to the foreign exchange markets, institutions, tools and applications. The objective of this course is to provide students with the contexts and tools to think about current issues related to foreign exchange exposures in international finance. These include the choice of exchange rate regimes, exchange rate forecasting and exposure management using a variety of instruments, and policies to ensure the smooth functioning of the foreign exchange markets.

EN2203 Introduction to Film Studies

Application form, Sem 2
7

Backup 12 · Sem 2 · 4 units · https://nusmods.com/courses/EN2203

Preclusion	if undertaking an Undergraduate Degree then (must not have completed "EN2113")

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course focuses on two fundamental questions: How do films work? And what is film's socio-cultural impact? This course trains students to critically engage with and analyse popular film texts by examining how films utilize the different elements of cinema to create meaning, to tell stories, and to shape ideological perspectives. Students will also gain a better appreciation for how the business of entertainment has shaped the film product and better appreciate the role film plays in society.

ESE3101 Resource Management and Circular Economy

Application form, Sem 2
8

Backup 13 · Sem 2 · 4 units · https://nusmods.com/courses/ESE3101

Department, level	Civil and Environmental Engineering, College of Design and Engineering · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 2	✓ Sem 2 · Open to exchange students
2026/27 exam	Mon 3 May 2027, 9:00 am, 1 h 30 min (Singapore time)
Workload (NUSMods)	Lecture 3, tutorial 1, lab 0, project 3, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Flags	– CS2113 and ESE3101: their 2026/27 exams overlap. If they still do in the year you go, NUS won't approve both and its form won't take both (GRO). NUS publishes each year's timetable in mid-July.
Prerequisite	If undertaking an Undergraduate Degree THEN (must be undertaking 1 of 0613ESHON Bachelor of Engineering (Environmental and Sustainability Engineering) (Hons), 0105NVGHON Bachelor of Environmental Studies - Geography (Hons), 0613EVEHON Bachelor of Engineering (Environmental Engineering) (Hons), 1000NVBHON Bachelor of Environmental Studies - Biology (Hons), 1001BESXDP Bachelor of Environmental Studies - Biology (Hons) XDP AND must be Year 2,3 or 4)
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course introduces the advanced concept of solid and hazardous waste management and the cleanup processes used around the world. It covers collection, quantification, characterisation, processing, treatment, disposal and resource recovery, along with the circular economy in relation to solid and hazardous waste. It will supply students with in-depth knowledge on the principles of design, construction, operation and maintenance of various treatment and disposal facilities along with engineering, institutional, legal and financial infrastructures.

GE1101E Geographical Journeys: Exploring World Environments

Application form, Sem 2
9

Backup 14 · Sem 2 · 4 units · https://nusmods.com/courses/GE1101E

Department, level	Geography, Arts and Social Science · Level 1000–3000, undergraduate
Counts	To confirm with NUS: read its notes.
Exchange status, Sem 2	◈ Sem 2 · Open, with 1 note – Timetable. The NG list offers it in Sem 2, but NUSMods shows no classes for it in Sem 2. Ask the department that teaches it whether it will run (NG list, updated 01 Sep 2026).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 2, tutorial 1, lab 0, project 2, preparation 5 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	If undertaking an Undergraduate Degree THEN must not have completed 1 of GEK1001/GEM1001K at a grade of at least D

COURSE DESCRIPTION (NUS, VIA NUSMODS)

In this course, we will explore contemporary socio-economic and environmental issues and processes shaping our world, and the geographical perspectives needed to better understand them. Our primary goal is to develop students with strong 'geographical imaginations' better able to understand our human and physical environments and all their complexities in a holistic way.

GE3249 Geographies of Life and Death

Application form, Sem 2
10

Backup 15 · Sem 2 · 4 units · https://nusmods.com/courses/GE3249

Department, level	Geography, Arts and Social Science · Level 1000–3000, undergraduate
Counts	To confirm with NUS: read its notes.
Exchange status, Sem 2	◈ Sem 2 · Open, with 1 note – Timetable. The NG list offers it in Sem 2, but NUSMods shows no classes for it in Sem 2. Ask the department that teaches it whether it will run (NG list, updated 01 Sep 2026).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 2, tutorial 1, lab 0, project 2, preparation 5 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	if undertaking an Undergraduate Degree then (must not have completed "GE2206" at a grade of at least D)

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course introduces students to major debates about population from a geographical perspective. Students will examine how geography interacts with key demographic processes and meanings over the life course, including fertility, health and disease, migration, ageing, and death. The course explores how these population dynamics are entwined with contemporary concerns such as gender and power, climate change and digitalisation. Students will gain the skills to understand current population challenges, evaluate responses, assess policy impacts, and envision alternative futures. No prior background is required—come with curiosity and a willingness to think critically about real-world challenges.

HSI2014 Science, Medical Technology and Society

Won't fit in NUS's 40 units

Backup 16 · Sem 2 · 4 units · https://nusmods.com/courses/HSI2014

Department, level	Physics, Science · Level 1000–3000, undergraduate
Counts	To confirm with NUS: read its notes.
Exchange status, Sem 2	◈ Sem 2 · Open, with 1 note – Timetable. The NG list offers it in Sem 2, but NUSMods shows no classes for it in Sem 2. Ask the department that teaches it whether it will run (NG list, updated 01 Sep 2026).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 3, tutorial 0.5, lab 0, project 2.5, preparation 4 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	If undertaking an Undergraduate Degree THEN (must have completed 1 of HSI1000/SP2274 at a grade of at least D OR must have completed 1 of any Courses beginning with NSS2001 at a grade of at least D)
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

Medical technology is one of the most important applications of science and technology; it provides the means to protect and preserve lives in today's world of ageing population, proliferation of chronic diseases, global pandemics and rising pollution. This course discusses the fusion of physics of biology that forms the basis of modern medical imaging and radiation therapy technology, and traces its roots from the foundational theories to its implementation in medical procedures. Students will learn how such technology is applied to disease management, as well as the modern innovations that pave the way towards the future of healthcare.

ID4400 Creative Computing

Won't fit in NUS's 40 units

Backup 17 · Sem 2 · 4 units · https://nusmods.com/courses/ID4400

Department, level	Design, College of Design and Engineering · Level 4000, Honours

Counts	Counted, if NUS accepts you into it
Exchange status, Sem 2	Sem 2 · Open, with 1 note
NUS's notes	– Grading. You must take it for a grade (NG restrictions, updated 31 Aug 2026). – GRO: “Higher level undergraduate courses (e.g. course code starting from 4000 & above) have very limited supply and are usually NOT available to exchange students. In order to increase the chances of securing enough courses, incoming exchange students should consider taking courses with course code starting from 1000 to 3000”.
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 2, tutorial 2, lab 0, project 4, preparation 2 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course introduces creative computing through the lens of computer graphics, exploring how computation and algorithms can be both tools and subjects of creative expression. Students will learn practical programming concepts by examining how 2D and 3D forms emerge from algorithmic rules, and how artificial behaviors can be defined programmatically. Topics will be approached through foundational theories and classic algorithms, followed by investigating their applications in simulators, game engines, procedural systems, and interactive animation.

IT1244 Artificial Intelligence: Technology and Impact

Won't fit in NUS's 40 units

Backup 18 · Sem 2 · 4 units · https://nusmods.com/courses/IT1244

Department, level	Computer Science, Computing · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 2	Sem 2 · Open to exchange students
2026/27 exam	Thu 29 Apr 2027, 1:00 pm, 2 h (Singapore time)
Workload (NUSMods)	Lecture 2, tutorial 1, lab 0, project 4, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	If undertaking an Undergraduate Degree THEN (must not have completed 1 of CS2109S/CS3243/CS3244/CS3263/CS3264/HS1501/IT3011 at a grade of at least D)

COURSE DESCRIPTION (NUS, VIA NUSMODS)

This course introduces students to artificial intelligence, which is becoming a general purpose technology with impact in multiple areas in society, including in the sciences, arts, and business. Topics covered include a conceptual understanding of how artificial intelligence works, current strengths and weaknesses of artificial intelligence relative to humans, and the risks in deploying AIs. Students are expected to implement a simple AI proof-of-concept, and to analyse its potential benefits as well as its risks. Students taking this course are expected to have prior exposure to programming and to be familiar with variables, types, operators, arrays, conditionals, loops, and functions.

LAK1201 Korean 1

Won't fit in NUS's 40 units

Backup 19 · Sem 2 · 4 units · https://nusmods.com/courses/LAK1201

Department, level	Centre for Language Studies, Arts and Social Science · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 2	Sem 2 · Open, with 1 note
NUS's notes	– Grading. You must take it for a grade. You cannot audit it (attend without a grade) (NG restrictions, updated 31 Aug 2026). – NUS needs a separate form in your application for a Level 1000 language course (GRO).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 4, tutorial 0, lab 0, project 3, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

Korean 1 is a beginners course. This is an integrated course which will help students gain basic proficiency in the four skills (listening, speaking, reading and writing), grammar and vocabulary (including Hanguel, the Korean alphabet) for personal interaction and communication in authentic situations.

LAR1201 Arabic 1

Won't fit in NUS's 40 units

Backup 20 · Sem 2 · 4 units · https://nusmods.com/courses/LAR1201

Department, level	Centre for Language Studies, Arts and Social Science · Level 1000–3000, undergraduate
Counts	Counted, if NUS accepts you into it
Exchange status, Sem 2	Sem 2 · Open, with 1 note

	– Grading. You must take it for a grade. You cannot audit it (attend without a grade) (NG restrictions, updated 31 Aug 2026).
NUS's notes	– NUS needs a separate form in your application for a Level 1000 language course (GRO).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 2, tutorial 2, lab 0, project 3, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

In Arabic 1 students spend the first half of the semester to master the Arabic alphabet. During this period, they will learn introductions and greetings and some vocab related mainly to school domain using the transliteration method. In the second half of the semester they will learn how to communicate in Arabic on a variety of topics such as countries and nationalities, numbers, occupations, days, months, etc. They will also learn simple grammatical aspects about question words, demonstratives, pronouns, adjectives, masculine and feminine gender, etc.

Sem 2 totals

- Sem 2: 0 units picked, if NUS accepts you into each
- About 0 hours a week at NUS's rate (2.5 hours a week per unit)
- NUS states hours a week only; your university's own conversion decides credit
- GRO: “Each semester normally includes 13 weeks of instruction and 2 weeks of examinations”
- Picks with overlapping 2026/27 exams: NUS approves at most one of each pair
- To be admitted, NUS must accept you into at least 12 units in a semester (NUS's brochure; GRO: “three pre-registered courses (or 12 units)”)
- In CourseReg you must keep at least 12 units or three courses (GRO)
- NUS’s brochure says at most 23 units a semester, but NUS Global’s exchange page says 20 (NUS Business School’s exchange students: 20). Ask NUS before planning more than 20.
- This limits the courses NUS enrols you in, not the courses you list

Closed, or not on NUS's exchange list, in that semester

Backups

CM5223 Topics in Supramolecular Chemistry

Not on the form: not open in Sem 2

Backup 6 · Sem 2 · 4 units · https://nusmods.com/courses/CM5223

Department, level	Chemistry, Science · Level 5000 and above, graduate
Counts	Not counted: not open to exchange students in Sem 2.
Exchange status, Sem 2	☒ Sem 2 · Not open to exchange students
	– Not open. Level 5000 and 6000 courses are graduate courses. Exchange students can take one only if NUS's restrictions list opens it to their year of study, and the list doesn't open this one to yours. If you need it, ask the department that teaches it (NG restrictions, updated 31 Aug 2026).
NUS's notes	– GRO: “Higher level undergraduate courses (e.g. course code starting from 4000 & above) have very limited supply and are usually NOT available to exchange students. In order to increase the chances of securing enough courses, incoming exchange students should consider taking courses with course code starting from 1000 to 3000”.
	– NUS: master-level courses are open only to students on a master-level exchange agreement (GRO).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 3, tutorial 1, lab 0, project 3, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

Supramolecular Chemistry is a rapidly developing field of research that uses noncovalent bonding interactions to form host-guest complexes, build geometrically specific shapes, and assemble molecules into stable, well-defined structures. The main objective of this course is to briefly overview supramolecular chemistry and then delve into the details of the various classes of noncovalent bonding interactions that researchers have used to prepare mechanically interlocked molecules. At the end of the course, an attentive student should be able to predict and rationalize noncovalent bonding interactions, specifically in the context of the design and synthesis of mechanically interlocked structures and artificial molecular machines.

CM5244 Advanced Environmental Chemistry

Not on the form: not open in Sem 2

Backup 7 · Sem 2 · 4 units · https://nusmods.com/courses/CM5244

Department, level	Chemistry, Science · Level 5000 and above, graduate
Counts	Not counted: not open to exchange students in Sem 2.
Exchange status, Sem 2	☒ Sem 2 · Not open to exchange students

	– Not open. Level 5000 and 6000 courses are graduate courses. Exchange students can take one only if NUS's restrictions list opens it to their year of study, and the list doesn't open this one to yours. If you need it, ask the department that teaches it (NG restrictions, updated 31 Aug 2026). – Not open. Courses in NUS self-funded programmes are not open to exchange students (NG restrictions, updated 31 Aug 2026).
NUS's notes	– GRO: “Higher level undergraduate courses (e.g. course code starting from 4000 & above) have very limited supply and are usually NOT available to exchange students. In order to increase the chances of securing enough courses, incoming exchange students should consider taking courses with course code starting from 1000 to 3000”. – NUS: master-level courses are open only to students on a master-level exchange agreement (GRO).
2026/27 exam	No final exam listed
Workload (NUSMods)	Lecture 2, tutorial 1, lab 0, project 4, preparation 3 hours a week (10 in all)
Estimated study time	About 10 hours a week (NUS's rate: 2.5 hours a week per unit). NUS states hours a week only; your university's own conversion decides credit.
Prerequisite	None listed
Preclusion	None listed

COURSE DESCRIPTION (NUS, VIA NUSMODS)

Environmental chemistry deals with the chemical and biochemical effects of pollutants in the air, soil and waters, and their remediation. Students will learn the principles and applications of environmental science, including atmospheric pollution and remediation, land and water pollution and remediation, and regulatory framework. Students will study cases from Singapore and the region, and receive practical training in relevant environmental analytical techniques. This course also covers US Environmental Protection Agency standards and World Health Organization guidelines for drinking water that Singapore’s reclaimed water (NEWater/desalinated water) quality meets and/ or exceeds. EPA's regulations, standards, etc will also cover in atmospheric chemistry topics. This course will equip students with knowledge and skills for work in the environmental services, including regulatory agencies.

NUS's application form order, for applicants

This order uses NUS's 2026/27 exchange list and exams. Applying for 2027/28? NUS publishes Sem 1's list in March or April, Sem 2's later (the 2026/27 list is dated 1 Sep 2026), and the timetable in mid-July: check each course there.

Sem 1 on NUS's form: 40 of 40 units

NUS has asked full-year students to choose Sem 2 courses later, by email before Sem 1 ends (NUS info sheet, 2018/19): check with NUS whether to list them now.

– NUS recommends listing as many relevant courses as you can, up to 40 units (GRO)
– NUS recommends ranking your compulsory courses among your top three choices, to increase your chances of securing them (GRO)
– NUS's form asks, for each course with a prerequisite, the home course that meets it (NUS's application guide)

– GRO: “If you did not secure any of the popular courses during the first round … please do not repeat your request for any of these courses in subsequent rounds”

ALREADY ADMITTED? NUS'S RULES FOR COURSEREG

– Keep at least 12 units or three courses a semester (GRO)
– Drop any course that clashes (GRO)
– On Business, Law and Economics courses: “If you are not successful in gaining placements into these popular courses at the point of offer, you are not able to add these courses during CourseReg” (GRO)
– Missing the drop deadlines “could lead to a Grade 'W' … or 'F' printed on your transcript” (GRO)
– The Registrar's Non-Graduating Office signs your Learning Agreement or Study Plan (GRO)
– “no particular course can be guaranteed by NUS” (GRO)
– A course not approved at application can be requested in “Submit Course Requests” or appealed as “Unable to secure course” (NUS's CourseReg FAQ)
– “Students are not allowed to read courses with any kind of timetable clashes” (NUS's CourseReg FAQ)
– You can't drop below the minimum workload (NUS's CourseReg FAQ)
– You may request “up to 23 Units in one course request”; above that, a Max Workload Waiver (NUS's CourseReg FAQ)
– Courses not on the exchange course list “are not available during application stage but may be available during Course registration” (the Registrar's course restrictions, rule E)
– “To check if the course is offered to Non-Graduating students, refer to the Vacancy Report” (NUS's CourseReg FAQ)
– Get your home university's approval before changing your study plan (NUS's brochure)
– This page can't see your offer. Your offer and CourseReg show which courses are yours.

– NUS posts each course's full syllabus on Canvas when the semester starts; the text here is NUS's course description (the Registrar's NG course list)
– “Transfer of units is entirely at the discretion of your home university” (GRO)
– NG course list updated as at 01 Sep 2026; NG course restrictions updated as at 31 Aug 2026
– Class times and corequisites aren't checked here
– For courses that have prerequisites, NUS asks for the syllabi of the courses you have completed or are taking (NUS's brochure)
– **Unofficial. Check with NUS before you register.** NUS Mod Finder, nusmodfinder.rcn.sh
